FHA production has more than tripled since last year and is continuing to rise. The current mortgage environment is making FHA products more popular than ever. Everyone wants to learn more about them.

Here's your chance!

FHA representatives will be conducting a 3-day class where you can learn about FHA processing, documentation requirements, FHA underwriting, mortgage calculations, underwriter responsibilities, automated underwriting (AUS), highlights of underwriting the FHA appraisal and more.

This training is highly beneficial for Underwriters and Processors and would also greatly enhance Loan Officers' knowledge base.

This course has also been approved for 8 hrs CEUs (Continuing Education Units) by the state of Washington. Idaho loan originators may also receive a total of 24 hrs of CEU from the state of Idaho. Licensees should check with your state for specific requirements.
